Subject: Comments to the Chairman

ORIGINAL

George A. Adams III (wahoo4438@yahoo.com) writes:

I am speaking on behalf of majority of Deaf, HOH, Deaf/Blind. We urge FCC to enforce the law to make all TV programs Closed caption. We had been pushed aside one time, this is not going to happen again. We urge FCC to approve of all programs on cable or TV or movies to be real time CC. Many hearing people are reading CC because the loss of hearing. This is supposed to be a free country. We Deaf have the right to have all TV or movie CC at all time. It will help to improve the English language. But I want the Close Captioners to produce good quality like having accurate spelling and keep up with the speed. I saw green CC line and it is easier on your eyes than black and white. Same way you enforce all TV manufacturers to have CC. I urge FCC to make all local news and weather real time CC, because it is our life we must depend on TV information. We cannot rely on car radio or any radio for information, so TV is only information Deaf must rely. Try turn off sound for one month and you tell me what it is being said.
